| Gene Symbol                 | POGK                                                                                                                                                                                                                                                                                                                                            |
| Species                     | Human, Mouse, Rat, Monkey                                                                                                                                                                                                                                                                                                                       |
| Reactivity Notes            | Please note that this antibody is reactive to Mouse and derived from the same host, Mouse. Mouse-On-Mouse blocking reagent may be needed for IHC and ICC experiments to reduce high background signal. You can find these reagents under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technical Support if you have any questions. |
| Immunogen                   | Full length recombinant protein of human POGK (NP_060012) produced in HEK293T cells.                                                                                                                                                                                                                                                            |
