CTLA-4 Antibody [DyLight 488]

| Product Information         |                                                                                                                                                          |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Unit Size                   | 0.1 ml                                                                                                                                                   |
| Concentration               | Please see the vial label for concentration. If unlisted please contact technical services.                                                              |
| Storage                     | Store at 4C in the dark.                                                                                                                                 |
| Clonality                   | Polyclonal                                                                                                                                               |
| Preservative                | 0.05% Sodium Azide                                                                                                                                       |
| Isotype                     | IgG                                                                                                                                                      |
| Conjugate                   | DyLight 488                                                                                                                                              |
| Purity                      | Antigen Affinity-purified                                                                                                                                |
| Buffer                      | 50mM Sodium Borate                                                                                                                                       |
| Product Description         |                                                                                                                                                          |
| Host                        | Goat                                                                                                                                                     |
| Gene ID                     | 1493                                                                                                                                                     |
| Gene Symbol                 | CTLA4                                                                                                                                                    |
| Species                     | Human                                                                                                                                                    |
| Specificity/Sensitivity     | Detects human CTLA-4 in direct ELISAs and Western blots. In Western blots, approximately 25% cross-reactivity with recombinant mouse CTLA-4 is observed. |
| Immunogen                   | <i>S. frugiperda</i> insect ovarian cell line Sf 21-derived recombinant human CTLA-4 Ala37-Phe162<br>Accession # Q6GR94                                  |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                        |
| Product Application Details |                                                                                                                                                          |
| Applications                | Western Blot, Flow Cytometry, CyTOF-ready, Immunocytochemistry                                                                                           |
| Recommended Dilutions       | Western Blot, Flow Cytometry, Immunocytochemistry, CyTOF-ready                                                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                   |
