| <b>Gene Symbol</b>                 | HAVCR1                                                                                                                                                                                                                                                          |
| <b>Species</b>                     | Mouse                                                                                                                                                                                                                                                           |
| <b>Specificity/Sensitivity</b>     | Detects mouse TIM $\square$ 1/KIM-1/HAVCR in direct ELISAs and Western blots. In direct ELISAs and Western blots, less than 5% cross-reactivity with recombinant human TIM-1, recombinant mouse (rm) TIM-2, rmTIM-3, rmTIM-4, rmTIM-6, and rmTIM-7 is observed. |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant mouse TIM $\square$ 1/KIM-1/HAVCR Tyr22-Thr212<br>Accession # NP_001160104                                                                                                                                      |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                                 |
| <b>Applications</b>                | Western Blot                                                                                                                                                                                                                                                    |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                                                                                                                                    |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                          |
