| Species                     | Mouse                                                                                                                                                                                                       |
| Specificity/Sensitivity     | Detects mouse Granzyme B in ELISAs and Western blots.                                                                                                                                                       |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant mouse Granzyme B<br>Lys17-Ser247<br>Accession # P04187                                                                                                      |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                           |
| Product Application Details |                                                                                                                                                                                                             |
| Applications                | Western Blot, Immunohistochemistry, Immunoprecipitation, ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair), ELISA Standard (Matched Pair), Immunocytochemistry, Neutralization |
| Recommended Dilutions       | Western Blot, Immunohistochemistry, Immunoprecipitation, ELISA Standard (Matched Pair), Neutralization, ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair), Immunocytochemistry |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                      |
