| Clonality                   | Polyclonal                                                                                                                                           |
| Preservative                | 0.05% Sodium Azide                                                                                                                                   |
| Isotype                     | IgG                                                                                                                                                  |
| Conjugate                   | Janelia Fluor 646                                                                                                                                    |
| Purity                      | Antigen Affinity-purified                                                                                                                            |
| Buffer                      | 50mM Sodium Borate                                                                                                                                   |
| Product Description         |                                                                                                                                                      |
| Host                        | Goat                                                                                                                                                 |
| Gene ID                     | 1311                                                                                                                                                 |
| Gene Symbol                 | COMP                                                                                                                                                 |
| Species                     | Human                                                                                                                                                |
| Specificity/Sensitivity     | Detects human COMP in direct ELISAs and Western blots. In direct ELISAs, approximately 50% cross-reactivity with recombinant mouse COMP is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human COMP/Thrombospondin-5 Gln21-Ala757 (Ala256Arg)<br>Accession # P49747                           |
| Notes                       | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                |
| Product Application Details |                                                                                                                                                      |
| Applications                | Western Blot, Neutralization                                                                                                                         |
| Recommended Dilutions       | Western Blot, Neutralization                                                                                                                         |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                               |
