| Gene Symbol                 | GLI2                                                                                                                                                                                                                                           |
| Species                     | Human                                                                                                                                                                                                                                          |
| Specificity/Sensitivity     | Detects human GLI-2 in direct ELISAs and Western blots. In direct ELISAs and Western blots, approximately 25% cross-reactivity with recombinant mouse GLI-2 and 5% cross-reactivity with recombinant human (rh) GLI-1 and rhGLI-3 is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human GLI-2<br>Ala2-Glu91<br>Accession # BAA25668                                                                                                                                                          |
| Notes                       | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                                                                                                          |
| Product Application Details |                                                                                                                                                                                                                                                |
| Applications                | Western Blot, Immunohistochemistry, Chromatin Immunoprecipitation (ChIP)                                                                                                                                                                       |
| Recommended Dilutions       | Western Blot, Immunohistochemistry, Chromatin Immunoprecipitation (ChIP)                                                                                                                                                                       |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                         |
