| Gene Symbol                 | HFE2                                                                                                                                                                                                                                               |
| Species                     | Mouse                                                                                                                                                                                                                                              |
| Specificity/Sensitivity     | Detects mouse RGM-C in direct ELISAs and Western blots. In direct ELISAs, approximately 50% cross-reactivity with recombinant human RGM-C is observed and less than 5% cross-reactivity with recombinant mouse (rm) RGM-A and rmRGM-B is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant mouse RGM-C isoform 1 (R&D Systems, Catalog # 3634-RG)<br>Gln33-Asp393 (Ile379Val)<br>Accession # Q7TQ32                                                                                           |
| Product Application Details |                                                                                                                                                                                                                                                    |
| Applications                | Western Blot                                                                                                                                                                                                                                       |
| Recommended Dilutions       | Western Blot                                                                                                                                                                                                                                       |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                             |
