| <b>Purity</b>                      | Antigen Affinity-purified                                                                                                                                                                                       |
| <b>Buffer</b>                      | 50mM Sodium Borate                                                                                                                                                                                              |
| <b>Product Description</b>         |                                                                                                                                                                                                                 |
| <b>Host</b>                        | Goat                                                                                                                                                                                                            |
| <b>Gene ID</b>                     | 4794                                                                                                                                                                                                            |
| <b>Gene Symbol</b>                 | NFKBIE                                                                                                                                                                                                          |
| <b>Species</b>                     | Human                                                                                                                                                                                                           |
| <b>Specificity/Sensitivity</b>     | Detects human IκB-ε in direct ELISAs. In direct ELISAs, approximately 40% cross-reactivity with recombinant mouse IκB-ε is observed and less than 1% cross-reactivity with recombinant human IκB-β is observed. |
| <b>Immunogen</b>                   | <i>E. coli</i> -derived recombinant human IκB-ε<br>Ser141-Asp500<br>Accession # O00221                                                                                                                          |
| <b>Notes</b>                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                               |
| <b>Product Application Details</b> |                                                                                                                                                                                                                 |
| <b>Applications</b>                | Immunohistochemistry                                                                                                                                                                                            |
| <b>Recommended Dilutions</b>       | Immunohistochemistry                                                                                                                                                                                            |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                          |
