| Gene ID                     | 20308                                                                                                                                                                                                                                             |
| Gene Symbol                 | Ccl9                                                                                                                                                                                                                                              |
| Species                     | Mouse                                                                                                                                                                                                                                             |
| Specificity/Sensitivity     | Detects CCL9/10/MIP $\square$ 1 $\gamma$ in direct ELISAs and Western blots. In direct ELISAs, less than 25% cross-reactivity with recombinant mouse C10 is observed and less than 1% cross-reactivity with recombinant human MPIF-1 is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant mouse CCL9/10/MIP $\square$ 1 $\gamma$<br>Gln22-Gln122<br>Accession # Q3U9T8                                                                                                                                  |
| Product Application Details |                                                                                                                                                                                                                                                   |
| Applications                | Western Blot, Neutralization                                                                                                                                                                                                                      |
| Recommended Dilutions       | Western Blot, Neutralization                                                                                                                                                                                                                      |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                            |
