| <b>Storage</b>                     | Store at 4C in the dark.                                                                                                                                                        |
| <b>Clonality</b>                   | Polyclonal                                                                                                                                                                      |
| <b>Preservative</b>                | 0.05% Sodium Azide                                                                                                                                                              |
| <b>Isotype</b>                     | IgG                                                                                                                                                                             |
| <b>Conjugate</b>                   | Allophycocyanin                                                                                                                                                                 |
| <b>Purity</b>                      | Antigen Affinity-purified                                                                                                                                                       |
| <b>Buffer</b>                      | PBS                                                                                                                                                                             |
| <b>Product Description</b>         |                                                                                                                                                                                 |
| <b>Host</b>                        | Sheep                                                                                                                                                                           |
| <b>Gene ID</b>                     | 53616                                                                                                                                                                           |
| <b>Gene Symbol</b>                 | ADAM22                                                                                                                                                                          |
| <b>Species</b>                     | Human                                                                                                                                                                           |
| <b>Specificity/Sensitivity</b>     | Detects human ADAM22 in direct ELISAs and Western blots. In direct ELISAs, less than 1% cross-reactivity with recombinant human (rh) ADAM8, rhADAM12, and rhADAM33 is observed. |
| <b>Immunogen</b>                   | Chinese hamster ovary cell line CHO-derived recombinant human ADAM22 Gly26-His528 (Leu78Val)<br>Accession # Q9P0K1                                                              |
| <b>Product Application Details</b> |                                                                                                                                                                                 |
| <b>Applications</b>                | Western Blot, Immunoprecipitation                                                                                                                                               |
| <b>Recommended Dilutions</b>       | Western Blot, Immunoprecipitation                                                                                                                                               |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                          |
