| Gene Symbol                 | IL10RB                                                                                                                                                                                                                                                   |
| Species                     | Mouse                                                                                                                                                                                                                                                    |
| Specificity/Sensitivity     | Detects mouse IL-10 R $\beta$ in direct ELISAs. In direct ELISAs, approximately 20% cross-reactivity with recombinant human (rh) IL-10 R $\beta$ is observed and less than 1% cross-reactivity with rhIL-10 R and recombinant mouse IL-10 R is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant mouse IL-10 R $\beta$ Ile21-Ser220<br>Accession # Q61190                                                                                                                                                 |
| Product Application Details |                                                                                                                                                                                                                                                          |
| Applications                | Flow Cytometry, CyTOF-ready                                                                                                                                                                                                                              |
| Recommended Dilutions       | Flow Cytometry, CyTOF-ready                                                                                                                                                                                                                              |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                   |
