| Gene Symbol                 | IL6                                                                                                                                                                                                                                                                                       |
| Species                     | Cotton Rat                                                                                                                                                                                                                                                                                |
| Specificity/Sensitivity     | Detects cotton rat IL-6 in direct ELISAs and Western blots. In direct ELISAs, approximately 20% cross-reactivity with recombinant mouse IL-6 and recombinant rat IL-6 is observed and less than 5% cross-reactivity with recombinant porcine IL-6 and recombinant human IL-6 is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant cotton rat IL-6<br>Leu25-Asn212<br>Accession # AAL18819                                                                                                                                                                                               |
