| Product Description         |                                                                                                                                                       |
| Host                        | Sheep                                                                                                                                                 |
| Gene ID                     | 10614                                                                                                                                                 |
| Gene Symbol                 | HEXIM1                                                                                                                                                |
| Species                     | Human                                                                                                                                                 |
| Specificity/Sensitivity     | Detects human Hexim 1 in direct ELISAs and Western blots. In direct ELISAs, less than 1% cross-reactivity with recombinant human Hexim 2 is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human Hexim 1<br>His213-Asp359<br>Accession # O94992                                                              |
| Product Application Details |                                                                                                                                                       |
| Applications                | Western Blot, Immunohistochemistry                                                                                                                    |
| Recommended Dilutions       | Western Blot, Immunohistochemistry                                                                                                                    |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                |
