| Species                     | Human                                                                                                                                                                                                                                                                                                                                           |
| Specificity/Sensitivity     | Detects human ADAM9 Ectodomain in ELISAs and Western blots. In sandwich immunoassays, approximately 20% cross-reactivity with recombinant mouse (rm) rmADAM9 is observed and less than 0.05% cross-reactivity with recombinant human (rh) rhADAM8, rhADAM10, rhTACE, rhTIMP-1, rhTIMP-2, rhTIMP-3, rhTIMP-4, rhBACE-1 and rmADAM10 is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human ADAM9 Ala206-Asp697 Accession # Q13443                                                                                                                                                                                                                                                    |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                                                                                                                                               |
| Product Application Details |                                                                                                                                                                                                                                                                                                                                                 |
| Applications                | Western Blot, Immunoprecipitation, ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair), ELISA Standard (Matched Pair), Knockout Validated                                                                                                                                                                            |
| Recommended Dilutions       | Western Blot, Immunoprecipitation, ELISA Standard (Matched Pair), ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair), Knockout Validated                                                                                                                                                                            |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                                                                                          |
