| Preservative                | 0.05% Sodium Azide                                                                                                                                                                                         |
| Isotype                     | IgG2b                                                                                                                                                                                                      |
| Conjugate                   | DyLight 594                                                                                                                                                                                                |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                                 |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                                         |
| Product Description         |                                                                                                                                                                                                            |
| Host                        | Mouse                                                                                                                                                                                                      |
| Gene ID                     | 285                                                                                                                                                                                                        |
| Gene Symbol                 | ANGPT2                                                                                                                                                                                                     |
| Species                     | Human                                                                                                                                                                                                      |
| Specificity/Sensitivity     | Detects human Angiopoietin-2 in direct ELISAs and Western blots. In direct ELISAs and Western blots, this antibody does not cross-react with recombinant human (rh) Ang-1, rhAng-4, rhAng-X, or rmANGPTL3. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human Angiopoietin-2 Asp68-Phe496<br>Accession # O15123                                                                                                    |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                          |
| Product Application Details |                                                                                                                                                                                                            |
| Applications                | Western Blot                                                                                                                                                                                               |
| Recommended Dilutions       | Western Blot                                                                                                                                                                                               |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                     |
