| Gene ID                 | 1509                                                                                                                                                                                                                  |
| Gene Symbol             | CTSD                                                                                                                                                                                                                  |
| Species                 | Mouse                                                                                                                                                                                                                 |
| Specificity/Sensitivity | Detects both the pro and active forms of mouse Cathepsin D in direct ELISAs and Western blots. In Western blots, no cross-reactivity with recombinant human Cathepsin D or recombinant mouse Cathepsin E is observed. |
| Immunogen               | Mouse myeloma cell line NS0-derived recombinant mouse Cathepsin D Ile21-Leu410<br>Accession # P18242                                                                                                                  |
| Notes                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                     |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot                                                           |
| Recommended Dilutions       | Western Blot                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
