| Gene Symbol             | KLK5                                                                                                                                                                                                           |
| Species                 | Human                                                                                                                                                                                                          |
| Specificity/Sensitivity | Detects human Kallikrein 5 in direct ELISAs and Western blots. In Western blots, no cross-reactivity with recombinant human (rh) Kallikrein 3, rhKallikrein 4, rhKallikrein 8, or rhKallikrein 11 is observed. |
| Immunogen               | Mouse myeloma cell line NS0-derived recombinant human Kallikrein 5 Ile67-Ser293<br>Accession # Q9Y337                                                                                                          |
| Notes                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                              |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot, Immunoprecipitation                                      |
| Recommended Dilutions       | Western Blot, Immunoprecipitation                                      |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
