| Host                        | Mouse                                                                                                                                                                                                                                                                                                   |
| Gene ID                     | 8823                                                                                                                                                                                                                                                                                                    |
| Gene Symbol                 | FGF16                                                                                                                                                                                                                                                                                                   |
| Species                     | Human                                                                                                                                                                                                                                                                                                   |
| Specificity/Sensitivity     | Detects human FGF-16 in direct ELISAs and Western blots. In direct ELISAs, less than 25% cross-reactivity with recombinant human (rh) FGF-3, -5, -8c, and -11 is observed and no cross-reactivity with rhFGF acidic, rhFGF basic, rhFGF-4, -6, -7, -8, -9, -10, -12, -13, -17, -18, or -19 is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human FGF-16<br>Ala2-Arg207<br>Accession # O43320                                                                                                                                                                                                                   |
| Notes                       | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                                                                                                                                                                   |
| Product Application Details |                                                                                                                                                                                                                                                                                                         |
| Applications                | Western Blot                                                                                                                                                                                                                                                                                            |
| Recommended Dilutions       | Western Blot                                                                                                                                                                                                                                                                                            |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                                                  |
