| Gene ID                 | 3956                                                                                                                                                                                                                                    |
| Gene Symbol             | LGALS1                                                                                                                                                                                                                                  |
| Species                 | Mouse                                                                                                                                                                                                                                   |
| Specificity/Sensitivity | Detects mouse Galectin-1 in direct ELISAs and Western blots. In Western blots, this antibody shows 100% cross-reactivity with recombinant human (rh) Galectin-1 but no cross-reactivity with rhGalectin-2, -8, rmGalectin-3, -4, or -7. |
| Immunogen               | <i>E. coli</i> -derived recombinant mouse Galectin-1<br>Ala2-Glu135<br>Accession # P16045                                                                                                                                               |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot                                                           |
| Recommended Dilutions       | Western Blot                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
