| Species                     | Human                                                                                                                                                                                                                                          |
| Specificity/Sensitivity     | Detects human Cystatin SN in direct ELISAs and Western blots. In direct ELISAs and Western blots, no cross-reactivity with recombinant human (rh) Cystatins A, B, C, D, S, SA, E/M, rhFetuin A, rhFetuin B, rhHPRG, or rhThrombin is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human Cystatin SN Trp21-Ser141 (predicted)<br>Accession # P01037                                                                                                                               |
| Product Application Details |                                                                                                                                                                                                                                                |
| Applications                | Western Blot, Immunoprecipitation                                                                                                                                                                                                              |
| Recommended Dilutions       | Western Blot, Immunoprecipitation                                                                                                                                                                                                              |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                         |
