| Gene Symbol             | HAVCR2                                                                                                                                                                                                               |
| Species                 | Mouse                                                                                                                                                                                                                |
| Specificity/Sensitivity | Detects mouse TIM-3 in direct ELISAs and Western blots. In direct ELISAs and Western blots, this antibody does not cross-react with recombinant human (rh) TIM-1, recombinant mouse (rm) TIM-1, rmTIM-2, or rhTIM-3. |
| Immunogen               | Mouse myeloma cell line NS0-derived recombinant mouse TIM-3 Arg20-Ala193<br>Accession # Q8VIM0                                                                                                                       |
| Notes                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                    |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot                                                           |
| Recommended Dilutions       | Western Blot                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
