| Specificity/Sensitivity     | Detects human Kininogen Light Chain in direct ELISAs and Western blots. In Western blots, it reacts with the full length (amino acids 19–644) and two forms of the light chain starting at amino acids 390 and 438, respectively, and does not react with the <i>E. coli</i> -expressed D5/Kininostatin. In Western blots, no cross-reactivity with recombinant human (rh) Cystatins A, B, C, D, E/M, F, S, SA, SN, rhFetuin A, B, rhHPRG, or recombinant mouse Kininogen is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human Kininogen Gln19-Ser644 (Ile581Thr) (predicted)<br>Accession # P01042.2                                                                                                                                                                                                                                                                                                                                                           |
| Product Application Details |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Applications                | Western Blot, Immunoprecipitation                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Recommended Dilutions       | Western Blot, Immunoprecipitation                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                                                                                                                                                                                                                                 |
