| Clone                       | 230927                                                                                                                                                                                    |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                        |
| Isotype                     | IgG2a                                                                                                                                                                                     |
| Conjugate                   | DyLight 405                                                                                                                                                                               |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                        |
| Product Description         |                                                                                                                                                                                           |
| Host                        | Mouse                                                                                                                                                                                     |
| Gene ID                     | 7058                                                                                                                                                                                      |
| Gene Symbol                 | THBS2                                                                                                                                                                                     |
| Species                     | Human                                                                                                                                                                                     |
| Specificity/Sensitivity     | Detects human Thrombospondin-2 in ELISAs. In sandwich immunoassays, no cross-reactivity or interference with recombinant human (rh) Thrombospondin-1, -4, rhMMP-2, or rhCD36 is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human Thrombospondin-2 Gly19-Ile1172<br>Accession # P35442                                                                                |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                         |
| Product Application Details |                                                                                                                                                                                           |
| Applications                | ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair), ELISA Standard (Matched Pair)                                                                             |
| Recommended Dilutions       | ELISA Standard (Matched Pair), ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair)                                                                             |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                    |
