| Clonality                   | Monoclonal                                                                                                                                                   |
| Clone                       | 26730                                                                                                                                                        |
| Preservative                | 0.05% Sodium Azide                                                                                                                                           |
| Isotype                     | IgG2a                                                                                                                                                        |
| Conjugate                   | Janelia Fluor 646                                                                                                                                            |
| Purity                      | Protein A or G purified from ascites                                                                                                                         |
| Buffer                      | 50mM Sodium Borate                                                                                                                                           |
| Product Description         |                                                                                                                                                              |
| Host                        | Mouse                                                                                                                                                        |
| Gene ID                     | 1435                                                                                                                                                         |
| Gene Symbol                 | CSF1                                                                                                                                                         |
| Species                     | Human                                                                                                                                                        |
| Specificity/Sensitivity     | Detects human M-CSF in direct ELISAs and Western blots. In direct ELISAs and Western blots, this antibody does not cross-react with recombinant mouse M-CSF. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human M-CSF                                                                                                              |
| Notes                       | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                        |
| Product Application Details |                                                                                                                                                              |
| Applications                | Western Blot, Neutralization                                                                                                                                 |
| Recommended Dilutions       | Western Blot, Neutralization                                                                                                                                 |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                       |
