| Clone                       | 257224                                                                                                                                                                              |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                  |
| Isotype                     | IgG2a                                                                                                                                                                               |
| Conjugate                   | DyLight 350                                                                                                                                                                         |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                          |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                  |
| Product Description         |                                                                                                                                                                                     |
| Host                        | Mouse                                                                                                                                                                               |
| Gene ID                     | 116448                                                                                                                                                                              |
| Species                     | Human                                                                                                                                                                               |
| Specificity/Sensitivity     | Detects human Olig 1, 2, 3. In direct ELISAs, this antibody shows approximately 20% cross-reactivity with recombinant human (rh) Olig2 and 50 - 100% cross-reactivity with rhOlig3. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human Olig1 aa 1-272                                                                                                                            |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                   |
| Product Application Details |                                                                                                                                                                                     |
| Applications                | Immunohistochemistry, Immunocytochemistry                                                                                                                                           |
| Recommended Dilutions       | Immunohistochemistry, Immunocytochemistry                                                                                                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                              |
