| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                                                                                                                                                                  |
| Buffer                      | PBS                                                                                                                                                                                                                                                                                                                                         |
| Product Description         |                                                                                                                                                                                                                                                                                                                                             |
| Host                        | Mouse                                                                                                                                                                                                                                                                                                                                       |
| Gene ID                     | 7040                                                                                                                                                                                                                                                                                                                                        |
| Species                     | Multi-Species                                                                                                                                                                                                                                                                                                                               |
| Specificity/Sensitivity     | Detects TGF- $\beta$ 1 from human, mouse, rat, and other species in direct ELISAs and Western blots. In sandwich ELISAs, less than 2% cross-reactivity with recombinant human (rh) TGF- $\beta$ 3 and recombinant amphibian TGF- $\beta$ 5 and no cross-reactivity with recombinant porcine TGF- $\beta$ 2 or rhTGF- $\beta$ 2 is observed. |
| Immunogen                   | Chinese hamster ovary cell line CHO-derived recombinant TGF- $\beta$ 1 and latent TGF- $\beta$ 1                                                                                                                                                                                                                                            |
| Product Application Details |                                                                                                                                                                                                                                                                                                                                             |
| Applications                | ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair), ELISA Standard (Matched Pair)                                                                                                                                                                                                                               |
| Recommended Dilutions       | ELISA Standard (Matched Pair), ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair)                                                                                                                                                                                                                               |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                                                                                      |
