| Clonality                   | Monoclonal                                                                                                                                                                   |
| Clone                       | 348701                                                                                                                                                                       |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                           |
| Isotype                     | IgG1                                                                                                                                                                         |
| Conjugate                   | DyLight 488                                                                                                                                                                  |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                   |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                           |
| Product Description         |                                                                                                                                                                              |
| Host                        | Mouse                                                                                                                                                                        |
| Gene ID                     | 10082                                                                                                                                                                        |
| Gene Symbol                 | GPC6                                                                                                                                                                         |
| Specificity/Sensitivity     | Detects human Glypican 6 in direct ELISAs and Western blots. In direct ELISAs and Western blots, no cross-reactivity with recombinant human Glypican 2, 3, or 5 is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human Glypican 6 Asp24-Val527<br>Accession # Q9Y625                                                                          |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                            |
| Product Application Details |                                                                                                                                                                              |
| Recommended Dilutions       | Western Blot, Intracellular Staining by Flow Cytometry, CyTOF-ready                                                                                                          |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                       |
