| <b>Gene Symbol</b>             | IL1RAPL2                                                                                                                                                                                                                                                                                                                                                   |
| <b>Species</b>                 | Mouse                                                                                                                                                                                                                                                                                                                                                      |
| <b>Specificity/Sensitivity</b> | Detects mouse IL1RAPL2 in direct ELISAs and Western blots. In direct ELISAs and Western blots, approximately 25% cross-reactivity with recombinant human (rh) IL1RAPL2 is observed and no cross-reactivity with recombinant mouse (rm) IL-1 R1, rmIL-1 R2, rmIL-1 R4, rmIL-1 Rrp2, rmSIGIRR, rhIL-1 R3, rhIL-1 R4, rhIL-1 Rrp2, or rhIL1RAPL1 is observed. |
| <b>Immunogen</b>               | Mouse myeloma cell line NS0-derived recombinant mouse IL1RAPL2 Asn18-Ala358<br>Accession # Q9ERS6                                                                                                                                                                                                                                                          |

| <b>Product Application Details</b> |                                                                        |
|------------------------------------|------------------------------------------------------------------------|
| <b>Applications</b>                | Western Blot                                                           |
| <b>Recommended Dilutions</b>       | Western Blot                                                           |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined. |
