| Clonality                   | Monoclonal                                                                                                                                                                                 |
| Clone                       | 341346                                                                                                                                                                                     |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                         |
| Isotype                     | IgG2a                                                                                                                                                                                      |
| Conjugate                   | FITC                                                                                                                                                                                       |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                 |
| Buffer                      | PBS                                                                                                                                                                                        |
| Product Description         |                                                                                                                                                                                            |
| Host                        | Mouse                                                                                                                                                                                      |
| Gene ID                     | 3326                                                                                                                                                                                       |
| Gene Symbol                 | HSP90AB1                                                                                                                                                                                   |
| Species                     | Human, Mouse, Rat                                                                                                                                                                          |
| Specificity/Sensitivity     | Detects human, mouse, and rat HSP90 $\beta$ in Western blots and direct ELISAs. In Western blots and direct ELISAs, no cross-reactivity with recombinant human HSP90 $\alpha$ is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human HSP90 $\beta$<br>Met1-Asp724<br>Accession # P08238                                                                                               |
| Product Application Details |                                                                                                                                                                                            |
| Applications                | Western Blot, Knockout Validated                                                                                                                                                           |
| Recommended Dilutions       | Western Blot, Knockout Validated                                                                                                                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                     |
