| Clone                       | 347428                                                                                                                                                                                                              |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                                                  |
| Isotype                     | IgG1                                                                                                                                                                                                                |
| Conjugate                   | DyLight 350                                                                                                                                                                                                         |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                                          |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                                                  |
| Product Description         |                                                                                                                                                                                                                     |
| Host                        | Mouse                                                                                                                                                                                                               |
| Gene ID                     | 4793                                                                                                                                                                                                                |
| Gene Symbol                 | NFKB1B                                                                                                                                                                                                              |
| Species                     | Human, Rat                                                                                                                                                                                                          |
| Specificity/Sensitivity     | Detects human and rat I $\kappa$ B- $\beta$ in direct ELISAs and Western blots. In Western blots, no cross-reactivity with recombinant human (rh) I $\kappa$ B- $\alpha$ or rhI $\kappa$ B- $\epsilon$ is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human I $\kappa$ B- $\beta$<br>Ala2-Val356<br>Accession # Q15653                                                                                                                |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                   |
| Product Application Details |                                                                                                                                                                                                                     |
| Applications                | Western Blot                                                                                                                                                                                                        |
| Recommended Dilutions       | Western Blot                                                                                                                                                                                                        |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                              |
