| Clonality                   | Monoclonal                                                                                                                                                        |
| Clone                       | 398024                                                                                                                                                            |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                |
| Isotype                     | IgG2a                                                                                                                                                             |
| Conjugate                   | Allophycocyanin                                                                                                                                                   |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                        |
| Buffer                      | PBS                                                                                                                                                               |
| Product Description         |                                                                                                                                                                   |
| Host                        | Rat                                                                                                                                                               |
| Gene ID                     | 29952                                                                                                                                                             |
| Gene Symbol                 | DPP7                                                                                                                                                              |
| Species                     | Human                                                                                                                                                             |
| Specificity/Sensitivity     | Detects human DPPII/QPP/DPP7 in direct ELISAs and Western blots. In direct ELISAs and Western blots, 5% cross-reactivity with recombinant mouse DPP7 is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human DPPII/QPP/DPP7 Gly22-Leu492<br>Accession # AAH11907                                                         |
| Product Application Details |                                                                                                                                                                   |
| Applications                | Western Blot                                                                                                                                                      |
| Recommended Dilutions       | Western Blot                                                                                                                                                      |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                            |
