| Isotype                     | IgG1                                                                                                                                                                                                                        |
| Conjugate                   | PE                                                                                                                                                                                                                          |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                                                  |
| Buffer                      | PBS                                                                                                                                                                                                                         |
| Product Description         |                                                                                                                                                                                                                             |
| Host                        | Mouse                                                                                                                                                                                                                       |
| Gene ID                     | 3817                                                                                                                                                                                                                        |
| Gene Symbol                 | KLK2                                                                                                                                                                                                                        |
| Species                     | Human                                                                                                                                                                                                                       |
| Specificity/Sensitivity     | Detects human Kallikrein 2 in direct ELISAs and Western blots. In direct ELISAs and Western blots, no cross-reactivity with recombinant human Kallikrein 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, or B1 is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human Kallikrein 2 Ile25-Pro261<br>Accession # P20151                                                                                                                       |
| Product Application Details |                                                                                                                                                                                                                             |
| Applications                | Western Blot, Immunoprecipitation, Neutralization                                                                                                                                                                           |
| Recommended Dilutions       | Western Blot, Immunoprecipitation, Neutralization                                                                                                                                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                      |
