| Clonality                   | Monoclonal                                                                                                                                          |
| Clone                       | 70525                                                                                                                                               |
| Preservative                | 0.05% Sodium Azide                                                                                                                                  |
| Isotype                     | IgG2b                                                                                                                                               |
| Conjugate                   | Janelia Fluor 549                                                                                                                                   |
| Purity                      | Protein A or G purified from ascites                                                                                                                |
| Buffer                      | 50mM Sodium Borate                                                                                                                                  |
| Product Description         |                                                                                                                                                     |
| Host                        | Mouse                                                                                                                                               |
| Gene ID                     | 8600                                                                                                                                                |
| Gene Symbol                 | TNFSF11                                                                                                                                             |
| Species                     | Human                                                                                                                                               |
| Specificity/Sensitivity     | Detects human TRANCE/TNFSF11/RANK L in direct ELISAs. No cross-reactivity with recombinant mouse TRANCE is observed.                                |
| Immunogen                   | <i>S. frugiperda</i> insect ovarian cell line Sf 21-derived recombinant human TRANCE/TNFSF11/RANK L Gly136-Asp317 (Ala194Gly)<br>Accession # O14788 |
| Notes                       | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                               |
| Product Application Details |                                                                                                                                                     |
| Applications                | Immunohistochemistry, Neutralization                                                                                                                |
| Recommended Dilutions       | Immunohistochemistry, Neutralization                                                                                                                |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                              |
