| Host                    | Mouse                                                                                                                                                                                                                                                                                                                                         |
| Gene ID                 | 7133                                                                                                                                                                                                                                                                                                                                          |
| Gene Symbol             | TNFRSF1B                                                                                                                                                                                                                                                                                                                                      |
| Species                 | Human                                                                                                                                                                                                                                                                                                                                         |
| Specificity/Sensitivity | Detects human TNF RII in ELISAs and Western blots. In ELISAs, no cross-reactivity or interference was observed with recombinant human (rh) TNF RI, recombinant mouse (rm) TNF RI, rmTNF RII, rmTNF $\alpha$ , rhTNF $\alpha$ , or rhTNF $\beta$ . In Western blots, this antibody does not cross-react with rhTNF RI, rmTNF RI, or rmTNF RII. |
| Immunogen               | <i>E. coli</i> -derived recombinant human TNF RII/TNFRSF1B<br>Leu23-Asp257<br>Accession # P20333                                                                                                                                                                                                                                              |
| Notes                   | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                                                                                                                                                                                                         |

| Product Application Details |                                                                                                                                             |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Applications                | Western Blot, ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair), ELISA Standard (Matched Pair), Neutralization |
| Recommended Dilutions       | Western Blot, ELISA Standard (Matched Pair), Neutralization, ELISA Capture (Matched Antibody Pair), ELISA Detection (Matched Antibody Pair) |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                      |
