| Clone                       | 69146                                                                                                                                               |
| Preservative                | 0.05% Sodium Azide                                                                                                                                  |
| Isotype                     | IgG1                                                                                                                                                |
| Conjugate                   | DyLight 650                                                                                                                                         |
| Purity                      | Protein A or G purified from ascites                                                                                                                |
| Buffer                      | 50mM Sodium Borate                                                                                                                                  |
| Product Description         |                                                                                                                                                     |
| Host                        | Mouse                                                                                                                                               |
| Gene ID                     | 4982                                                                                                                                                |
| Gene Symbol                 | TNFRSF11B                                                                                                                                           |
| Species                     | Human                                                                                                                                               |
| Specificity/Sensitivity     | Detects human Osteoprotegerin/TNFRSF11B in direct ELISAs. In direct ELISAs, no cross-reactivity with recombinant mouse Osteoprotegerin is observed. |
| Immunogen                   | <i>S. frugiperda</i> insect ovarian cell line Sf 21-derived recombinant human Osteoprotegerin/TNFRSF11B<br>Glu22-Leu401<br>Accession # AAB53709     |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                   |
| Product Application Details |                                                                                                                                                     |
| Applications                | Neutralization                                                                                                                                      |
| Recommended Dilutions       | Neutralization                                                                                                                                      |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                              |
