| Preservative                | 0.05% Sodium Azide                                                                                                                                                                                         |
| Isotype                     | IgG                                                                                                                                                                                                        |
| Conjugate                   | DyLight 650                                                                                                                                                                                                |
| Purity                      | Protein A purified                                                                                                                                                                                         |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                                         |
| Product Description         |                                                                                                                                                                                                            |
| Host                        | Rabbit                                                                                                                                                                                                     |
| Gene ID                     | 29760                                                                                                                                                                                                      |
| Gene Symbol                 | BLNK                                                                                                                                                                                                       |
| Species                     | Mouse                                                                                                                                                                                                      |
| Specificity/Sensitivity     | The polyclonal antibody reacts with mouse SLP65 / BLNK, a cytosolic adaptor protein identified as two phosphoproteins migrating at 68 and 70 kDa in SDS/PAGE (alternatively spliced forms of human SLP65). |
| Immunogen                   | A fusion protein representing amino acids 171-356 of human BLNK.                                                                                                                                           |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                          |
| Product Application Details |                                                                                                                                                                                                            |
| Applications                | Western Blot                                                                                                                                                                                               |
| Recommended Dilutions       | Western Blot                                                                                                                                                                                               |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                     |
