Product Information

PAWR / PAR4 Antibody [Alexa Fluor® 532]

Unit Size Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Polyclonal Preservative 0.05% Sodium Azide Isotype IgG Conjugate Alexa Fluor 532 Purity Immunogen affinity purified Buffer 50mM Sodium Borate Product Description Host Rabbit Gene ID 5074 Gene Symbol PAWR Species Human Reactivity Notes Human. Other species have not been tested. Specificity/Sensitivity PAR4 Immunogen Synthetic peptides corresponding to the N-terminal sequence (MATGGYRTSSGLGGS) and C-terminal sequence (QENKTLLKVVGQLTR) of human PAR4. Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product onveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product are expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in materials made using the product or its components, or in order the product or its components, or in materials made using the product or its components, or in materials made using the p	1 Todaot Illiotillation	
Storage Store at 4C in the dark.
