| Species                     | Human                                                                                                                                                                                                           |
| Reactivity Notes            | 0                                                                                                                                                                                                               |
| Immunogen                   | Antibody was raised against a 19 amino acid synthetic peptide near the amino terminus of human NALP13. The immunogen is located within amino acids 150 - 200 of NALP13. Amino Acid Sequence: QDPNQEEPEMLEEADHRR |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                               |
| Product Application Details |                                                                                                                                                                                                                 |
| Applications                | Western Blot, ELISA, Immunocytochemistry/Immunofluorescence                                                                                                                                                     |
| Recommended Dilutions       | Western Blot, ELISA, Immunocytochemistry/Immunofluorescence                                                                                                                                                     |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                          |
