| Species                     | Human                                                                                                                                                                                               |
| Reactivity Notes            | 0                                                                                                                                                                                                   |
| Immunogen                   | Antibody was raised against a 17 amino acid synthetic peptide near the center of human PLAC2. The immunogen is located within amino acids 60 - 110 of PLAC2. Amino Acid Sequence: WAARGHRKKRSTEGAGE |
| Product Application Details |                                                                                                                                                                                                     |
| Applications                | Western Blot, ELISA, Immunocytochemistry/Immunofluorescence                                                                                                                                         |
| Recommended Dilutions       | Western Blot, ELISA, Immunocytochemistry/Immunofluorescence                                                                                                                                         |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                              |
