| Clonality                   | Polyclonal                                                                                                                                                                                                    |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                                            |
| Isotype                     | IgG                                                                                                                                                                                                           |
| Conjugate                   | PE                                                                                                                                                                                                            |
| Purity                      | Peptide affinity purified                                                                                                                                                                                     |
| Buffer                      | PBS                                                                                                                                                                                                           |
| Product Description         |                                                                                                                                                                                                               |
| Host                        | Rabbit                                                                                                                                                                                                        |
| Gene ID                     | 283149                                                                                                                                                                                                        |
| Gene Symbol                 | BCL9L                                                                                                                                                                                                         |
| Species                     | Human                                                                                                                                                                                                         |
| Specificity/Sensitivity     | Bcl9L antibody is predicted to not cross-react with other Bcl family members. At least four isoforms of Bcl9L are known to exist; this antibody will detect all four.                                         |
| Immunogen                   | Antibody was raised against a 20 amino acid synthetic peptide near the amino terminus of human Bcl9L. The immunogen is located within amino acids 20 - 70 of Bcl9L. Amino Acid Sequence: PAKPMHPENKLTNHGKTGNG |
| Product Application Details |                                                                                                                                                                                                               |
| Applications                | Western Blot, Immunohistochemistry-Paraffin, ELISA, Immunocytochemistry/Immunofluorescence, Immunohistochemistry                                                                                              |
| Recommended Dilutions       | Western Blot, ELISA, Immunohistochemistry, Immunocytochemistry/Immunofluorescence, Immunohistochemistry-Paraffin                                                                                              |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                        |
