| Species                     | Human, Mouse, Rat                                                                                                                                                                                            |
| Reactivity Notes            | 0                                                                                                                                                                                                            |
| Immunogen                   | Antibody was raised against a 13 amino acid synthetic peptide near the carboxy terminus of human TINP1. The immunogen is located within the last 50 amino acids of TINP1. Amino Acid Sequence: KYAQVTNNPENDG |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                            |
| Product Application Details |                                                                                                                                                                                                              |
| Applications                | Western Blot, ELISA, Immunohistochemistry, Immunohistochemistry-Paraffin                                                                                                                                     |
| Recommended Dilutions       | Western Blot, ELISA, Immunohistochemistry, Immunohistochemistry-Paraffin                                                                                                                                     |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                       |
