| Purity                      | Peptide affinity purified                                                                                                                                                                                 |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                                                        |
| Product Description         |                                                                                                                                                                                                           |
| Host                        | Chicken                                                                                                                                                                                                   |
| Gene ID                     | 23141                                                                                                                                                                                                     |
| Gene Symbol                 | ANKLE2                                                                                                                                                                                                    |
| Species                     | Human, Mouse, Rat                                                                                                                                                                                         |
| Specificity/Sensitivity     | Three isoforms of ANKLE2 are known to exist; this antibody will detect all three. ANKLE2 antibody is predicted to not cross-react with ANKLE1.                                                            |
| Immunogen                   | Antibody was raised against a 19 amino acid synthetic peptide near the center of human ANKLE2. The immunogen is located within amino acids 280 - 330 of ANKLE2. Amino Acid Sequence: CSESETVNKERANSYKNPRT |
| Notes                       | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                                                                     |
| Product Application Details |                                                                                                                                                                                                           |
| Applications                | Western Blot, ELISA                                                                                                                                                                                       |
| Recommended Dilutions       | Western Blot, ELISA                                                                                                                                                                                       |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                    |
