| Clonality                   | Polyclonal                                                                                                                                              |
| Preservative                | 0.05% Sodium Azide                                                                                                                                      |
| Isotype                     | IgG                                                                                                                                                     |
| Conjugate                   | DyLight 755                                                                                                                                             |
| Purity                      | Affinity purified                                                                                                                                       |
| Buffer                      | 50mM Sodium Borate                                                                                                                                      |
| Product Description         |                                                                                                                                                         |
| Host                        | Goat                                                                                                                                                    |
| Species                     | Canine                                                                                                                                                  |
| Reactivity Notes            | Based on IEP, no reactivity is observed to non-immunoglobulin canine serum immunoglobulins                                                              |
| Specificity/Sensitivity     | Based on IEP, this Goat anti-Canine IgG (H+L) Secondary Antibody reacts with heavy gamma chains on dog IgG and light chains on all dog immunoglobulins. |
| Immunogen                   | This Goat anti-Canine IgG (H+L) Secondary Antibody was developed against purified canine IgG (H&L).                                                     |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                       |
| Product Application Details |                                                                                                                                                         |
| Applications                | Flow Cytometry, Immunocytochemistry/Immunofluorescence, Immunomicroscopy                                                                                |
| Recommended Dilutions       | Flow Cytometry : 1:20-1:2000, Immunocytochemistry/Immunofluorescence, Immunomicroscopy : 1:20-1:2000                                                    |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                  |
