| Gene ID                 | 1043                                                                                                                                                                                                                                                        |
| Gene Symbol             | CD52                                                                                                                                                                                                                                                        |
| Species                 | Human, Cynomolgus Monkey, Rhesus Macaque                                                                                                                                                                                                                    |
| Specificity/Sensitivity | Human CD52 antigen, also known as CAMPATH-1. CD52 is expressed at high density by lymphocytes, monocytes, eosinophils, thymocytes and macrophages. It is expressed by most lymphoid derived malignancies, although expression on myeloma cells is variable. |
| Immunogen               | Human lymphocytes                                                                                                                                                                                                                                           |

| Product Application Details |                                                                                                                                                          |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Applications                | Western Blot, ELISA, Flow Cytometry, Immunohistochemistry, Immunohistochemistry-Frozen, Immunohistochemistry-Paraffin, In vivo assay, Immunofluorescence |
| Recommended Dilutions       | Western Blot, Flow Cytometry, ELISA, Immunohistochemistry, Immunohistochemistry-Paraffin, Immunohistochemistry-Frozen, In vivo assay, Immunofluorescence |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                   |

**Images**

CD52 Antibody (Campath-1H) [mFluor Violet 500 SE] - Vial of mFluor Violet 500 conjugated antibody. mFluor Violet 500 is optimally excited at 410 nm by the Violet laser (405 nm) and has an emission maximum of 501 nm.
