| Product Description         |                                                                                                                                                                                    |
| Host                        | Armenian Hamster                                                                                                                                                                   |
| Species                     | Epitope Tag                                                                                                                                                                        |
| Specificity/Sensitivity     | This antibody binds to carboxy-terminal oligo-histidine tags (6x His tags) of fusion proteins. It also has affinity for internal His-tags but no affinity for N-terminal His-tags. |
| Immunogen                   | This His Tag Antibody (3D5) - Chimeric was developed against a purified his-tagged Fab fragment.                                                                                   |
| Product Application Details |                                                                                                                                                                                    |
| Applications                | Western Blot, ELISA                                                                                                                                                                |
| Recommended Dilutions       | Western Blot, ELISA                                                                                                                                                                |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                             |
