| <b>Description</b> | Novus Biologicals Rabbit ZBTB40 Antibody - BSA Free (NBP2-84340) is a polyclonal antibody validated for use in WB. All Novus Biologicals antibodies are covered by our 100% guarantee.                                                            |
| <b>Host</b>        | Rabbit                                                                                                                                                                                                                                            |
| <b>Gene ID</b>     | 9923                                                                                                                                                                                                                                              |
| <b>Gene Symbol</b> | ZBTB40                                                                                                                                                                                                                                            |
| <b>Species</b>     | Human                                                                                                                                                                                                                                             |
| <b>Immunogen</b>   | The immunogen is a synthetic peptide directed towards the middle region of human ZBTB40. Peptide sequence: FPGALQHHVTTEHFKQSETTFPCELCGELFTSQAQLDSHLESEHPKVMST The peptide sequence for this immunogen was taken from within the described region. |

**Product Application Details**

|                              |                        |
|------------------------------|------------------------|
| <b>Applications</b>          | Western Blot           |
| <b>Recommended Dilutions</b> | Western Blot 1.0 ug/ml |

**Images**

Western Blot: ZBTB40 Antibody [NBP2-84340] - WB Suggested Anti-ZBTB40 Antibody Titration: 0.2-1 ug/ml. ELISA Titer: 1:12500. Positive Control: 721\_B cell lysate ZBTB40 is strongly supported by BioGPS gene expression data to be expressed in Human 721\_B cells
