| <b>Description</b> | Novus Biologicals Rabbit SCN7A Antibody - BSA Free (NBP2-85697) is a polyclonal antibody validated for use in WB. All Novus Biologicals antibodies are covered by our 100% guarantee.                                                            |
| <b>Host</b>        | Rabbit                                                                                                                                                                                                                                           |
| <b>Gene ID</b>     | 6332                                                                                                                                                                                                                                             |
| <b>Gene Symbol</b> | SCN7A                                                                                                                                                                                                                                            |
| <b>Species</b>     | Human                                                                                                                                                                                                                                            |
| <b>Immunogen</b>   | The immunogen is a synthetic peptide directed towards the N-terminal region of human SCN7A. Peptide sequence: PFIYGNLSQGMVSEPLEDVPYKKNTFIVLNKNRTIFRFNAASILCT The peptide sequence for this immunogen was taken from within the described region. |

**Product Application Details**

|                              |                        |
|------------------------------|------------------------|
| <b>Applications</b>          | Western Blot           |
| <b>Recommended Dilutions</b> | Western Blot 1.0 ug/ml |

**Images**

Western Blot: SCN7A Antibody [NBP2-85697] - Host: Rabbit. Target Name: SCN7A. Sample Type: Fetal Thymus lysates. Antibody Dilution: 1.0ug/ml
