| <b>Isotype</b>       | IgG                                                                                         |
| <b>Purity</b>        | Protein A purified                                                                          |
| <b>Buffer</b>        | 0.2 um filtered solution in PBS                                                             |

**Product Description**

|                    |                                                                                                                                                                                                                             |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b> | This antibody can be stored at 2C-8C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20C to -80C. Avoid repeated freeze-thaw cycles. |
| <b>Host</b>        | Rabbit                                                                                                                                                                                                                      |
| <b>Gene ID</b>     | 9217                                                                                                                                                                                                                        |
| <b>Gene Symbol</b> | VAPB                                                                                                                                                                                                                        |
| <b>Species</b>     | Human                                                                                                                                                                                                                       |
| <b>Immunogen</b>   | This antibody was obtained from a rabbit immunized with purified, recombinant Human VAP-B (Uniprot#: O95292-1; Met 1-Pro 132).                                                                                              |

**Product Application Details**

|                              |                                                                                 |
|------------------------------|---------------------------------------------------------------------------------|
| <b>Applications</b>          | Western Blot, ELISA, Immunoprecipitation (Negative)                             |
| <b>Recommended Dilutions</b> | Western Blot 1:500-1:2000, ELISA 1:5000-1:10000, Immunoprecipitation (Negative) |

**Images**

Western Blot: VAP-B Antibody (208) [NBP2-89626] - Lane A: HepG2 Whole Cell Lysate Lane B: A549 Whole Cell Lysate Lane C: Jurkat Whole Cell Lysate Lysates/proteins at 30 ug per lane. Secondary Goat Anti-Rabbit IgG H&L (Dylight800) at 1/10000 dilution. Developed using the Odyssey technique. Performed under reducing conditions. Predicted band size:27 kDa Observed band size:32 kDa
