Viperin Antibody (MaP.VIP)

| Product Information |                         |
|---------------------|-------------------------|
| Unit Size           | 100 ug                  |
| Concentration       | 0.1 mg/ml               |
| Storage             | Store at 4C.            |
| Clonality           | Monoclonal              |
| Clone               | MaP.VIP                 |
| Preservative        | 0.02% Sodium Azide      |
| Isotype             | IgG2a                   |
| Purity              | Protein G purified      |
| Buffer              | PBS containing 0.1% BSA |

| Product Description     |                                                      |
|-------------------------|------------------------------------------------------|
| Host                    | Mouse                                                |
| Gene ID                 | 91543                                                |
| Gene Symbol             | RSAD2                                                |
| Species                 | Human, Mouse                                         |
| Specificity/Sensitivity | Mouse                                                |
| Immunogen               | Recombinant mouse viperin fragment (residues 92-362) |

| Product Application Details |                                                                                                                                                                                                                                           |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Applications                | Western Blot, Flow Cytometry, Immunoprecipitation, Immunofluorescence                                                                                                                                                                     |
| Recommended Dilutions       | Western Blot, Flow Cytometry, Immunoprecipitation, Immunofluorescence                                                                                                                                                                     |
| Application Notes           | For flow cytometry and Western blotting, dilutions to be used depend on detection system applied. It is recommended that users test the reagent and determine their own optimal dilutions. The typical starting working dilution is 1:50. |
