TCL1A Antibody (TCL1/2079) [Alexa Fluor® 594]

Product Information	1021/7/milbody (1021/2070) [/moxd/1doi/@ 004]		
Concentration Please see the vial label for concentration. If unlisted please contact te services. Storage Store at 4C in the dark. Clonality Monoclonal Clone TCL1/2079 Preservative Jo.5% Sodium Azide Isotype IgG2a Kappa Conjugate Alexa Fluor 594 Purity Protein A or G purified Buffer SomM Sodium Borate Product Description Host Mouse Gene ID 8115 Gene Symbol TCL1A Species Human Marker T-Cell Marker Immunogen Recombinant fragment (around aa 2-109) of human TCL1A protein (exsequence is proprietary) (Uniprot: P56279) Notes Alexa Fluor (R) products are provided under an intellectual property lic Life Technologies Corporation. The purchase of this product and con of the product only in research conducted by the buyer (whether the bit academic or for-profit entity). The sale of this product is expressly con the buyer not using the product or its components, or any materials may the product or its components, or any materials may the product or its components, or any materials may the product or its components, or any materials may the product or its components, or any materials may the product or its components, or any materials may the product or its components, or any materials may the product or its components, or any materials may alway the product or its components, or any materials may alway the product or its components, or any materials may the product or its components, or any materials may the product or its components, or any activity to generate revenue, whinclude, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for on purchasing a license to this product for purposes; or (ir resale, regardless of whether they are resold for use in research. For i on purchasing a license to this product or. This conjugate is made demand. Adtual recovery may avay from the stated volume of this product demand. Adtual recovery may avay from the stated volume of this product.	Product Information		
Storage Store at 4C in the dark. Clonality Monoclonal Clone TCL1/2079 Preservative 0.05% Sodium Azide Isotype IgG2a Kappa Conjugate Alexa Fluor 594 Purity Protein A or G purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 8115 Gene Symbol TCL1A Species Human Marker T-Cell Marker Immunogen Recombinant fragment (around aa 2-109) of human TCL1A protein (exsequence is proprietary) (Uniprot: P56279) Notes Alexa Fluor (R) products are provided under an intellectual property lick Life Technologies Corporation. The purchased of this product conveys buyer the non-transferable right to use the purchased product and con of the product only in research conducted by the buyer (whether the biacademic or for-profit entity). The sale of this product is expressly conthe buyer not using the product or its components, or any materials me the product or its components, in any activity to generate revenue, whi include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) for therapeutic, diagnostic or prophylactic purposes; or (ir resale, regardless of whether they are resold for use in research. Gene Symbol TCL1A Species Human Marker T-Cell Marker Immunogen Recombinant fragment (around aa 2-109) of human TCL1A protein (exsequence is proprietary) (Uniprot: P56279) Notes Alexa Fluor (R) products are provided under an intellectual property lic Life Technologies Corporation. The purchase of this product conveys a buyer the non-transferable right to use the purchased product and condition of the product only in research conducted by the buyer (whether the beacademic or for-profit entity). The sale of this product is expressly conditionally the product or its components, or any materials materials materials and the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (in resale, regardless of whether they are resold for use in research. For its on purchasing a license to this product for purposes other than as desabove, contact Life Technologies Corporation, 5791 Van Allen Way, CA 92008 USA or outlicensing@lifetech.com. This conjugate is maded demand. Actual recovery may vary from the stated volume of this product.			
Species Human T-Cell Marker Recombinant fragment (around aa 2-109) of human TCL1A protein (exsequence is proprietary) (Uniprot: P56279) Notes Alexa Fluor (R) products are provided under an intellectual property lic Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and conform of the product only in research conducted by the buyer (whether the buse academic or for-profit entity). The sale of this product is expressly contained the product or its components, or any materials			
Marker Immunogen Recombinant fragment (around aa 2-109) of human TCL1A protein (exsequence is proprietary) (Uniprot: P56279) Notes Alexa Fluor (R) products are provided under an intellectual property lick Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and come of the product only in research conducted by the buyer (whether the bust academic or for-profit entity). The sale of this product is expressly conducted by the buyer not using the product or its components, or any materials may the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (increase, regardless of whether they are resold for use in research. For its on purchasing a license to this product for purposes other than as desembled above, contact Life Technologies Corporation, 5791 Van Allen Way, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made demand. Actual recovery may vary from the stated volume of this product or this product or the stated volume of this product demand.			
Recombinant fragment (around aa 2-109) of human TCL1A protein (exsequence is proprietary) (Uniprot: P56279) Notes Alexa Fluor (R) products are provided under an intellectual property lic Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and conform of the product only in research conducted by the buyer (whether the bound academic or for-profit entity). The sale of this product is expressly conformation of the product or its components, or any materials may the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (in resale, regardless of whether they are resold for use in research. For its on purchasing a license to this product for purposes other than as desabove, contact Life Technologies Corporation, 5791 Van Allen Way, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made demand. Actual recovery may vary from the stated volume of this product.			
Notes Alexa Fluor (R) products are provided under an intellectual property lic Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and composed of the product only in research conducted by the buyer (whether the beacademic or for-profit entity). The sale of this product is expressly conducted buyer not using the product or its components, or any materials mathe product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (increase, regardless of whether they are resold for use in research. For its on purchasing a license to this product for purposes other than as des above, contact Life Technologies Corporation, 5791 Van Allen Way, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made demand. Actual recovery may vary from the stated volume of this product.			
Alexa Fluor (R) products are provided under an intellectual property lick Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and composed of the product only in research conducted by the buyer (whether the bure academic or for-profit entity). The sale of this product is expressly concentrated the buyer not using the product or its components, or any materials may the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (increase, regardless of whether they are resold for use in research. For in on purchasing a license to this product for purposes other than as destabove, contact Life Technologies Corporation, 5791 Van Allen Way, CCA 92008 USA or outlicensing@lifetech.com.
